New York Stock Market

NEW YORK, December 6.-Hesitation and constraint made themsolves feit in the stock speculation again today, following the volatile movement
of Saturday. The explanation of the
action of the market was somewhat
obscure. The duliness into which the
market fell from time to time was
due partly to the large reduction of
the outstanding short interest by the
covering operations responsible for the
actual assembling of Congress had its
usual restraining effect on the speculative spirit. The soothing effect of
the supposed knowledge as to the contents of the President's message was
somewhat unpaired by an intimation
that it was to be followed at an early
date by other special messages, devoted
nore exclusively to the topies in which
the stock market takes a particular interest. Another sudden drop in Amertean sugar showing lack of support for
that stock was regarded as suggestive,
and helped to prompt a selling movement
of wider scope. At the same time there
was an aggressive demand for other
particular stocks, which had neutralizing effect and kept the market irregular and unsettled. There was occasional demand for Reading, with insistent assertion, that a dividend increuse was near at hand. Sales of
Rock Island preferred at 90 made a
new record for that stock, due to
reiterated reports that it would soon
go on a 5 per cent. dividend basis.
These and like points of strength gave
the market a spotty appearance and
did not alter the weakness of others,
especially in the metal group and
amongst the Pacific railroads.

The question of wage readjustments
amongst railroad employes was discuseed, but without greatly disturbing
effect. Money rates were not changed,
but money brokers reported some time
loans on special collateral at rates
from 5.1-2 to 5 per cent.

Bonds were firm. Total sales, par
value, \$4,942,000.

United States 4's coupon declined 1-4,
and the 2's advanced 1-4 per cent. on
call.

Total sales to-day were 773,500

Futures opened steady at an advance of 7 points on better cables than expected. The market was much of a waiting affair from the opening because of the two bureau reports to be published this week, but it had a good tone on reports of an increased spot demand in many sections of the belt. Texps and Goorgia both sent in telegrams telling of higher prices for spots and good trading at the advance in districts where holders would let go. At the highest of the prices were \$610 points up. In the afternoon session long cotton came out freely and prices sagged off somewhat, but at no time did the market display weakness. The closing was barely steady at a net decline of 142 points.
